

6N UPDATE

What's been going on in 6N so far...

Hi everyone!

We have had a fantastic start to the year, getting to know your child. We have been having so much fun building relationships and developing our classroom community.

This year Nikki will be teaching the class from Monday - Wednesday and Joe will be taking the class on Thursday and Friday. We are having a great time teaching and learning from each other.

An important part of building our class community is establishing our Essential Agreement. This is an agreement on how we will work together in 2021!

Our essential agreement is:

1. Work as a team, be inclusive and contribute
2. Be a role model
3. Show student agency – ask questions and set and reflect on your goals
4. Always have a Growth Mindset
5. Demonstrate the Learner Profile Attributes and the Approaches to Learning

The first three weeks...

We have started the year creating our class community and it has been a lot of fun!

We have had a lot of get to know you activities, team building, working with new people, meeting our buddies and pool day!
